COMMENTS

THIS 1963 Pontiac Lemans convertible is a rare find, 89,000 original miles, these cars were produced from 1961 to 1963. The cars came with 4cyl in 1963 a 326v8 was a one year only option. This 63 is a matching number driveline. Brand new power convertible top just installed, new tires, driver quality paint, nice original interior, car runs and drives amazing.

RARITY

These 1963 Lemans had the only rear independent suspension in GM lineup other than Corvette, This car was mentioned in the movie (MY cousin Vinny) This IS A super rare car.
